

PAVEL SUŠICKÝ

Junior Front-end developer from Prague

Front-end developer and undergraduate at Czech Technical University in Prague. I'm skilled in modern JavaScript frameworks and meta-frameworks. I focus on Accessibility, along with performance and developer experience.

Experience

Avocode

2019 - 2021, Prague Czech Republic

- **Junior React Front-end developer**

I've helped application development team with their React component library. The main task was migrating components to TypeScript and establishing a new Design System with a Design Token approach.

- **Junior React Front-end developer Intern**

I have been tasked to integrate Avocode into the Atlassian ecosystem. The main mission was to create Jira & Confluence integration for Avocode to level up the experience for our customers using Jira for ticket management. The project was successfully launched along with a marketing campaign which I helped to realize.

Education

Czech Technical University

2020 - current, Prague Czech Republic

- **Faculty of Electrical Engineering**

Software engineering and technologies
